Mr. Lee-

I have not looked into that issue. The Office of Air Quality permit writer is more familiar with the air permit and might be able to more readily answer the air permit related questions. The permit writers name is Dominic Williams (317-234-6555).

John,

Do you know whether the current (Feb 25, 2015) Air Permit for TradeBe specifies the maximum amount of vapors (VOCs) to be burned in the Flare?

Jae Lee

Ruth and John,

Can one of you email me a current air permit for Tradebe?

Thanks,

John, can I call you today?

What is a best time to call you and would you provide me your phone number?

Talk with John Naddy and he should be able to put you in touch with the inspector if needed.

Thanks, Ruth.

Who might have a first-hand knowledge of this SDS unit?. I would like to have a brief chat about this unit for the incoming and outgoing stream and its flare control of off-gas.

Jae

Subject: Tradebe permit renewal application

Hi Jae,

I received your message. Tradebe does not have a description of the SDS in their renewal application. Since it's an exempt unit, we do not require any detailed information.

Thanks,

Ruth
